CONCERNING: Mitigation Plan for 2004 Irrigation season

We will turn off the end guns on our 2 pivots. This will decrease acreage watered with ground source water. We will also cut back the use of our ground source pumped water to 15 days per month or less.

We have taken a shrink on our decreed surface water rights.

The persons with water rights above the dam though error and malfunction of the water gage also have delivered to the dam more water than needed to fulfill the 6110 acre feet to the BIG LOST RIVER.

Sincerely,

 7/21/04
